CERTIFICATE OF PERFORMANCE
(STUHLING ENTERPRISE)

Stuhrling Enterprise is one of our many suppliers who provides reliable and quality materials needed in the operation of our company, RBL Fishing Corporation. They usually provide us good quality industrial materials like asbestos ropes, flux packings, engineering plastics, and the like.

With regards to their performance, we can say that they are quick enough to reply to price quotations, process purchase orders, and most importantly, deliver the products on time.

Whenever we have rush items that we need, you can see that they are professional enough to attend to your needs as long as they have the means to deliver the products.

So far, we don't have any problems with regards to their performance, and they have been our reliable partner since October 2014. We always look forward to do good transactions with them and maintain our good relationship as our supplier.
